Contractor shall, by specific endorsement to its primary liability policy, cause the coverage afforded to the additional insureds thereunder to be primary to and not concurrent with other valid and collectible insurance available to the additional insureds. Contractor shall, by specific endorsement to its umbrella/excess liability policy, cause the coverage afforded to the additional insureds hereunder to be first tier umbrella/excess coverage above the primary coverage afforded to the additional insureds and not concurrent with or excess to other valid and collectible insurance available to the additional insureds. Contractual Liability

To avoid paying claims for large Labor Law 240 third-party law suits, some insurance companies have removed contractual liability from their policies. In this case, your “Additional Insured” status with the contractor will be meaningless, and the contractor’s insurance will not back the contractor’s indemnification.

Here are few methods to try to determine if your subcontractor has contractual liability:

1. Ask for a copy of the contractor’s/sub-contractor’s insurance policy and have your broker review it.
2. Make sure “Contractual Liability” is added to the subcontractors’ certificate and request “No exclusion for contractual liability or injury to employees” in the “Description of Operations” section.
3. Request Certificate Addendum **Acord 855 NY** for coverage details from contractor / sub-contractor

Below is a partial list of insurance carriers that sometimes exclude this coverage:

Acceptance Casualty Ins. Co.	Everest	Peleus Insurance Co.
Acceptance Indemnity Ins. Co.	First Mercury – Cover X	Penn America
ACE	Gemini Insurance	Preferred Contractors Inc.
Alterra E&S	Guard Insurance Companies (NorGuard/AmGuard)	Prime Insurance Co.

We also recommend you require your subcontractors include a description of the work they plan to do. For example: roofing, excavation, residential carpentry, etc.

\$32,500/Day Violation Fine for Lack of Compliance

EPA's NEW Lead-Based Paint Rule Nationally Enforceable April 22, 2010

Beginning April 22, 2010, **ANYONE** who is paid to perform work that disturbs paint greater than six square feet in housing and child-occupied facilities built before 1978 must comply with the EPA's Lead Renovation, Repair and Painting (RRP) Program. Individuals who must comply include: residential rental property owners/managers, general contractors, and special trade contractors including painters, plumbers, carpenters, electricians and sheet rockers. Under this new rule, enforcement actions against **violators can include penalties up to \$32,500 per violation per day**, as well as the potential for costly litigation. This new EPA rule will be potentially litigious and tightly regulated.

Under this rule, each legal entity that performs paint disturbances must have applied to the EPA and been certified prior to April 22, 2010. All Certified firms performing such paint disturbances must ensure:

1. All individuals performing activities that disturb painted surfaces are either certified renovators or have been trained by a certified renovator.
2. A certified renovator is assigned to each renovation and performs all the certified renovator responsibilities.
3. All renovations are performed in accordance with the work practice standards of the Lead-Based Paint RRP Program.
4. The Certified Renovator provides pre-renovation documentation notifying occupants of work to be performed.
5. The program's recordkeeping requirements are met and kept for three years.

All certified firms must also employ a Certified Renovator(s) who has completed an EPA-approved Certified Renovator course (www.RRPTrainer.com). The Certified Renovators are responsible for ensuring overall compliance with the Lead-Based Paint RRP Program requirements at assigned renovation sites. A certified renovator must:

1. Use a test kit acceptable to EPA.
2. Provide on-the-job training to workers.
3. Be physically present at the work site when warning signs are posted, while the work-area containment is being established, and while the work-area cleaning is performed.
4. Regularly direct work being performed by other individuals.
5. Be available, either on-site or by telephone, at all times.
6. Perform project cleaning verification.
7. Have copies of initial course completion certificate present at all times.
8. Prepare required records and maintain for three years.

In order to avoid potential issues with enforcement agencies, litigators or tenants, you must either become EPA compliant by taking the RRP Training course or certify your pre-1978 properties as Lead-Based Paint Free. The EPA has 90 days from the date of receipt of your application before they must reply. The April 22 deadline has already passed, so if you are not already compliant, make sure you become compliant in order to legally perform such work.
